

EC300 Roots Vacuum Pump

Roots Vacuum Pumps

Vacuum system boosting, coating, drying, semiconductor and chemical projects.

300 L/s

Pumping speed

0.0001 mbar

Ultimate pressure

3.7 kW

Motor power

Technical specifications

Specification	Value
Pumping speed	300 L/s
Ultimate pressure	0.0001 mbar
Rated power	3.7 kW
Weight	115 kg
Maximum allowable pressure difference	7.3×10^3 Pa
Maximum inlet pressure	1.3×10^3 Pa
Inlet size	VG100 mm
Outlet size	VG100 mm

Typical applications

Vacuum system boosting, coating, drying, semiconductor and chemical projects.

Quotation checklist

Please confirm quantity, destination country, voltage/frequency, packaging requirement and working condition before quotation.

Specifications are for model selection reference. Final configuration should be confirmed before order.
